PROJECTS

Signplay | Blockchain ICP, dfx, Rust, ReactJs, Redux, Tailwind,etc

Nov 2024

- During my tenure at QuadB Tech, I developed a comprehensive Web3.0 Gaming Platform, 'SignPlay,' for client. Inside this project make the TSIP Custom Token for play the game while transactions.
- Key features I developed for 'SignPlay' include an multiple games Blackjack, Tetris, Infinity Bubble and Block Tap, etc. Custom Token TSIP, LeaderBoard List of the Top Performer Game wise and more..

Textube | Laravel(PHP), JavaScript, HTML, Bootstrap, MySQL with Xamp, IDE - VS Code July 2023

- During my tenure at AppinCuba, I developed a comprehensive tax and invoice management system, 'Textube,' for a Chartered Accountancy (CA) firm. This web-based solution streamlined the firm's tax and financial operations, improving efficiency and accuracy in managing invoices and tax-related processes.
- Key features I developed for 'Textube' include an Invoice Creation module, an Invoice Approval System, Invoice Customization capabilities, and a Custom Fields Addon, among other functionalities designed to enhance user experience and operational efficiency.
- Client - CA Firm Textube Private Limited.

Dev-Soft | ReactJs, Tailwind CSS, NodeJS, ExpressJs, VapiAi(ML), MySQL, IDE - VS Code May 2024

- This platform, designed for students and working professionals, leverages Devi AI (a large language model) to help users enhance and improve their soft skills through interactive learning.
- Key features I developed for the platform include the Devi AI Voice Communication Trainer and a comprehensive Soft-Skills Library, designed to facilitate targeted learning and improvement of essential interpersonal skills.
- Client - Me (Learning Purpose).

MarkMyAttendance | Java, XML, Database - SQLite, IDE - Android Studio

Jan 2024

- I am developing an Attendance Marker Android application, initially designed for implementation at my college to streamline and simplify attendance tracking.
- Key features I developed for the Attendance Marker Android application include student management (Add Students), an integrated Attendance System, PDF generation, and shareable PDF reports for seamless communication.
- Client - My College and CR's.
